

PALAKH VYAS

7773010161 | palakhvyas.indore@gmail.com | Indore, MP | [LinkedIn](#) | [GitHub](#)

EDUCATION

Vellore Institute of Technology University

Oct 2023 – Oct 2027

B.Tech., Computer Science and Engineering (Health Informatics)

New Digamber Public School

Mar 2020 – May 2023

Indore, MP

EXPERIENCE

MPOnline Limited

24 Weeks

Advanced Software Engineering and Development Intern

- Successfully completed a 12 week fully online internship involving structured technical training and practical exposure to .NET and CSS.
- Completed regular assessments and a final project, strengthening software development, technical, and problem-solving skills.

MPOnline Limited

12 Weeks

AI/ML Intern

<https://github.com/palakh-vyas/smart-retail-ai-platform>

- Smart Retail Backend: Engineered a FastAPI backend integrating machine learning pipelines for customer sentiment analysis, interactive chatbot workflows, and real time dashboard analytics.
- ML Classification: Replaced static logic with trained Logistic Regression and TF-IDF vectorization models to automate accurate review categorization.

PROJECTS

TB Prediction System

May 2026

github.com/palakh-vyas/TB-Prediction-System

- Developed an AI-based Tuberculosis Risk Prediction System using Python, Streamlit, and Scikit learn.
- Compared Logistic Regression (85% accuracy) and Random Forest (92% accuracy), selecting Random Forest as the final model.
- Performed data preprocessing, feature engineering, and NLP-based symptom analysis using Pandas, NumPy, and CountVectorizer.

Fraud Detector

Apr 2024

github.com/palakh-vyas/Fraud-detector

- Developed a Python based credit card fraud detection system with a Streamlit dashboard for transaction risk analysis.
- Implemented single transaction and batch CSV fraud detection with transaction preprocessing and automated fraud probability generation.
- Built automated risk classification using a 50% probability threshold and interactive reporting of flagged transactions.

PROGRAMMING SKILLS

Languages: Python, SQL, HTML/CSS

Libraries/Frameworks: Pandas, NumPy, Scikit-learn, Streamlit, FastAPI, Matplotlib

Tools: Git, GitHub, MS Excel, MS Word, Android Studio, VS Code, Canva

Relevant Coursework: Object-Oriented Programming, DBMS, Operating Systems, Machine Learning

CERTIFICATES

Google IT Support – Credly

Applied Machine Learning in Python – University of Michigan

Introduction to Machine Learning – Kaggle

AI/ML Internship – MPOne Limited

Advanced Software Engineering and Development Internship – MPOne Limited

EXTRA-CURRICULAR ACTIVITIES

StartUp Club | *Core Member*

Aug 2024 – June 2025

- Collaborated with teams to organize technical and entrepreneurial events and supported project coordination and outreach activities.

Kraaft Entertainment | *Core Member*

Aug 2024 – June 2026

- Designed digital content and communication materials while collaborating with team members to deliver projects on time.

IHEF Education Fair | *Volunteer*

- Volunteered at the IHEF Education Fair, assisting with event coordination and supporting participants and visitors.

Sports

- Participated in Cricket, Volleyball, and Badminton; secured medals for the team at Advitya Annual Fest through consistent performance and teamwork.
